EDUCATION

VIT Bhopal University

B.Tech in Computer Science (Specialization in Cyber Security)

Bhopal, M.P.

Sept 2023 – Sept 2027

Cathedral College

Jhansi, U.P.

Senior Secondary

Apr 2007 – Jun 2022

EXPERIENCE

Security Analyst Intern

Sept 2025 – Dec 2025

Technavors Security

Pune (Remote)

- Operated Web Application Pentesting, identifying critical issues in authentication, access control, and APIs.
- Created detailed penetration testing reports including CVSS scoring, risk categorizations, and mitigation plans.
- Collaborated with developers to validate fixes through retesting and regression testing before release.

Backend Developer Intern

Dec 2025 – Present

Genxploit Labs

Amsterdam, Netherlands (Remote)

- Validated backend functionalities by executing functional and regression test cases for role-based access.
- Performed API testing to verify input validation, rate limiting, and error handling using structured test scenarios.
- Monitored production behavior and logged defects related to performance, stability, and system behavior.

PROJECTS

WatchDog – Windows Offensive Security Tool | *Python, Powershell, Bash Script*

- Developed and deployed a standalone security utility (.exe) for Windows that monitors Event Logs in real-time to detect and mitigate unauthorized access attempts.
- Integrated a remote Command-and-Control (C2) interface to execute on-demand security actions, including **remote system locking**, **real-time screen capture**, and **webcam snapshots** for incident verification.
- Enabled authenticated remote actions including screen capture, device locking, and system status verification..

VAAUL - Vulnerability Assessment Automation Using LLM | *Python, BBOT, Nmap, Pandas*

- Developed a CLI testing utility to automate API and network test scenarios and analyze system responses.
- Processed test execution results into structured defect reports with clear categorization and traceability.
- Designed repeatable testing workflows to improve test coverage, consistency, and execution efficiency.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, Rust, Go, Bash, HTML5/CSS3

Frameworks & Tools: Spring Boot, React, Node.js, Express, RabbitMQ, REST APIs, Apache Kafka, Git

Testing Tools: Jira, Selenium, Playwright, Postman, Apache JMeter

Databases: MySQL, PostgreSQL, MongoDB, Firebase

Security Tools: Burp Suite, Nmap, Wireshark, Metasploit, Wazuh, Semgrep, Subfinder, Amass, Nikto, FFUF, Gobuster

Cybersecurity: Web/App/API Security, OWASP Top 10, Vulnerability Assessment, Penetration Testing

ACHIEVEMENTS

AICTE - Govt. Of India: Reported a critical XSS vulnerability in internship portal, acknowledged and patched.

ISACA: Reported Server Side TEmplate Injection and HTML Injection vulnerability, acknowledged by IT team.

Cybercrime Investigation and Intelligence Summit 2025: Achieved 5th position in CyberShield Hackathon.

CTFtime India Rank: Ranked 22nd All Over India with team T.U.S.K (112.535 pts).

BugCrowd USA BlackHat CTF: Ranked 37 of 1000 + teams all over the Globe competing with Top Teams.

CERTIFICATIONS

CNWPP – Certified Network & Website Pentesting Professional

Jr. Penetration Tester – TryHackMe

Foundation Level Threat Intelligence Analyst – arcX

Ethical Hacking – ZSecurity

The Bits and Bytes of Computer Networking – Google

Blockchain and its Applications – NPTEL (Govt. of India)
