EXPERIENCE

Security Engineer Intern

ConversAI Labs

Apr 2026 – Present

Gurgaon, India (Hybrid)

- Conducted penetration testing and security code reviews for web applications and APIs, identifying security vulnerabilities.
- Enhanced GCP security by reviewing IAM roles, analyzing BigQuery logs, and implementing cloud security best practices.
- Led SOC 2 readiness efforts through control documentation, evidence collection, gap assessments, and audit support.

Security Analyst Intern

Technavors Security

Sept 2025 – Dec 2025

Pune (Remote)

- Conducted web app penetration tests across 10+ targets, found 17+ critical vulnerabilities in Web Application Testing.
- Investigated security alerts, suspicious activities, performing analysis and triage to support incident detection and response.
- Monitored security events across systems, identifying anomalies and escalating potential threats based on risk and impact.

PROJECTS

OrbixaVPN – Secure VPN using V2Ray Protocol | *Xray, VLESS, WebSocket, TLS, Cloudflare* | [GitHub](#)

- Deployed Xray-core VLESS VPN across 3 cloud VPS nodes with encrypted tunneling; sub-50ms latency for 50+ users.
- Configured Cloudflare domain routing with TLS termination and WebSocket transport, sustaining 99.9% uptime.
- Automated VPS provisioning and Xray-core config via Bash scripts, cutting manual deployment time by 70%.

WatchDog – Windows Offensive Security Tool | *Python, PowerShell, Bash* | [GitHub](#)

- Built a standalone .exe monitoring Windows Event Logs in real-time, detecting threats across 100+ event types.
- Integrated a C2 interface supporting remote system locking, screen capture, and webcam snapshots for forensics.
- Packaged with PyInstaller into a single binary; deployed on 5+ test environments with zero dependency conflicts.

BodhGanga Academy – EdTech Platform | *Spring Boot, Java, MongoDB, AWS, Razorpay* | [GitHub](#)

- Built a Spring Boot based educational platform with Razorpay payment integration, and secure access user data.
- Developed an automated pipeline to sync materials from Google Drive to AWS S3, enabling secure and content delivery.
- Developed DRM-inspired content protection mechanisms, preventing unauthorized screenshots and screen captures of premium educational materials.
